

# Houses of Worship with d&b around the world.

Looking for ways to support intimate, transparent and engaging worship is a dedicated occupation at d&b. Working with churches of all scales and ages to ensure moving modern music and cascading choral song can be a part of daily life. For services not just made clear, but which arrive at the congregation exactly as intended. Because a whisper can be as powerful as a call. And words mean nothing without feeling the humanity behind them.

**Life Church** Auckland, New Zealand

"... people have come to me after the service and commented on the difference of experience. They use words like 'connected' to describe what they hear, 'it's as if the Pastor is stood right in front of us' they say."

**ICC (Impact Centre Chrétien)** Brazzaville, Congo

"Now we have no echoes and already are getting rave reviews from our congregation. The speech intelligibility is much, much better, and for classical music reproduction the sound is much crisper."

“The clarity just from one speaker convinced us to proceed with the d&b solution. We’re very happy with how the system looks and of course, how it sounds. York Minster, I believe, has the best sound system on the market.”
