

Nightclubs and bars with d&b around the world.

Thunderous and emotional. Dependable d&b systems for bass lovers and partygoers, night after night, year after year. One flexible solution for each distinctive style, without compromising the dynamics of performance, whether gut punching low end, all-consuming SPLs, or lazy lounging. Precise pattern control means separate zones can be defined without disturbing other areas. With remarkable performance to size ratio, nightclub solutions are recognized for all the right reasons: output power, low distortion, and stylish indestructibility.

Superface Club Shenzhen, China

"Interesting lighting solutions and excellent d&b sound combine harmoniously with the club's interior, emphasizing the venue's uniqueness and status in the city."

Alexander Leonidovich Konstantinovskiy,
Owner, CHI

CHI by Decadance Kiev, Ukraine

1OAK Tokyo, Japan

Echostage Washington DC, USA

The Noa Beach Club Pag, Croatia

"I had started to notice that in all the places I visited around the world and heard great sound, whether that was a big festival, a hotel bar or an opera house, I was seeing d&b speakers. This was a clear sign for me."

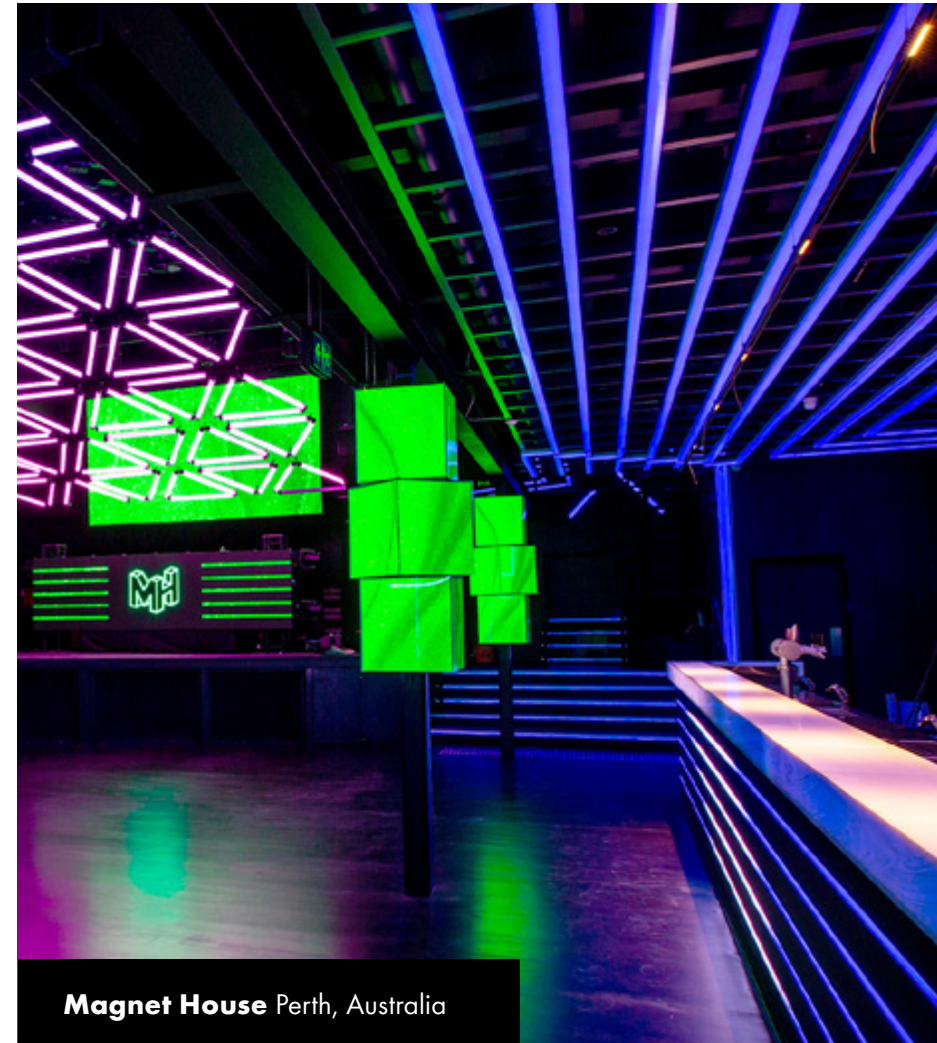

Salvatore Morale,
Owner, 1 OAK Tokyo

Club Central Croatia

“Wherever you are in the venue, on the dancefloor, the gallery level or any of the bars or VIP areas, there is a consistency and an alignment to what you hear: customers can fully enjoy every part of this incredible new space.”

Tomislav "Kuki" Koran,
Audio Tehnika

Magnet House Perth, Australia

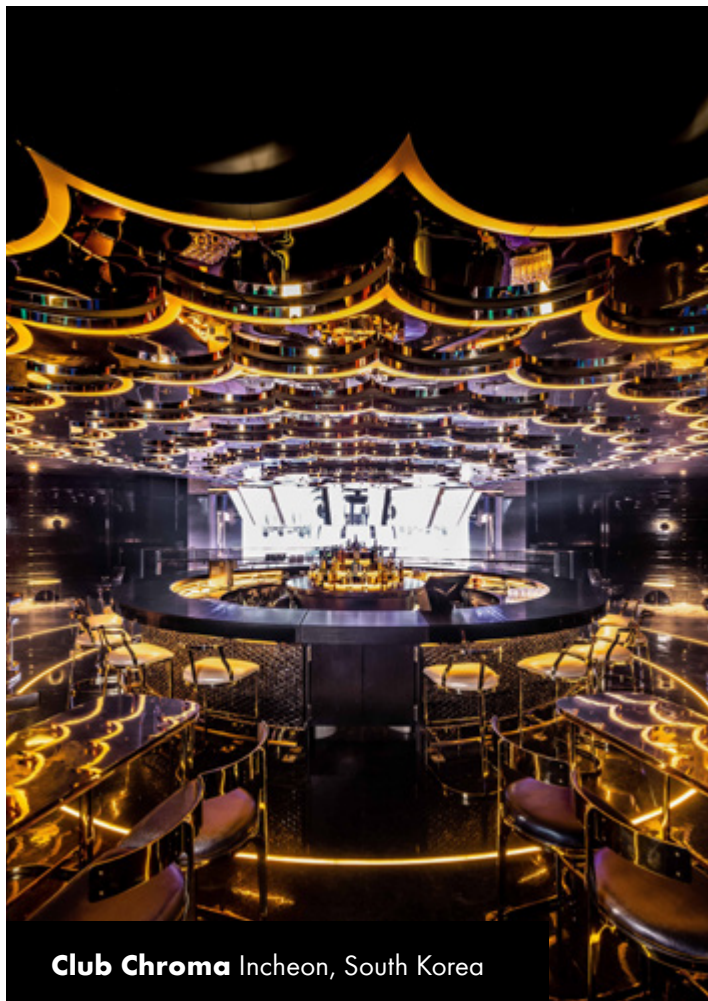

“We have already received amazing feedback from the EDM and band community on the new sound solution. The combination of the robust low mids with a well-balanced HF, even and directional VLF distributed across all listening planes, plus the venues captivating visuals make visiting Magnet House a feast for the senses.”
