

## NoizCalc 2.8 Update.

An update for NoizCalc 2.8 is available via the integrated update function.

This update supports ArrayCalc version 10.20 and R1 version 3.20 projects, including:

- the newly released **XSL System** with XSL(i)8 / XSL(i)12
- update to KSL(i) setups V1.04

NoizCalc 2.8 is also available for download at [dbaudio.com](https://dbaudio.com), alongside the d&b ArrayCalc simulation software and the R1 Remote control software.

For any questions or queries, please contact [support@dbaudio.com](mailto:support@dbaudio.com).

Kind regards  
Your d&b team
